RINSE & SPRITZ

A flexible spray spout with your QETTLE Signature Modern makes light work of rinsing garden-grown vegetables and salad, spritzing crockery before it goes into the dishwasher and blitzing those hard-to-get to sink corners.

Scan the QR code to watch how it works.

QETTLE's unique design and technology is protected by the following internationally granted patents: US9,958,073, GB9152937, CN208271133

- Divert hot, cold or mixed water to the tap's spray function at the touch of a button
- 40cm long, flexible hose
- Lock the spray mode, or switch between spray/normal flow
- 100°C boiling and filtered drinking water is dispensed via the separate, straight spout and cannot be diverted to the spray setting

DESIGNED & ENGINEERED QETTLE IN THE UK
